## COMPANY HISTORY

### CTC- COTEX

Manufacturer and Exporter of Woven, Knitted readymade garments & Textiles.  
Established in the year 1971, the business activities of CTC are as follows:

1971 to 1975 Cotton textile exports to USA, JAPAN & Europe.

1976 to 2010 Exports of Knitted and woven garments to USA, JAPAN & Europe.

Our main garment manufacturing factory is located at TIRUPUR, the Knits city of India – Tirupur, where we own one of the most modern and largest manufacturing plants.

Our woven garments are manufactured at our unit in Umergaon & Bhiwandi. NEAR MUMBAI.

Our Chairman Mr. Dilip Trivedi and MD Mr. Chirag Trivedi has a vision - to excel in whatever Cotex does, to be nothing but the very best in the market and customer satisfaction has been his ultimate aim. And to realize this aim, has made Cotex into a **VERTICAL PROJECT** – a complete in – house knitting, dying, printing, sewing & packing plant.

Our premium customer service and customized quality and pricing have taken us to a multi million dollar business.

From single jersey to jacquards, pointelles, viscose blends – from basic t-shirt to the trendiest fashions of the European market, we have been through every phase and emerged a winner.

BOMBAY CORPORATE OFFICE

## OUR PRODUCTION SET-UPS

### **Plant A**

Plant A of Cotex is situated 7kms before Tiruppur on the Avinashi Road. From Airport to Tiruppur, our factory comes first. This is our first factory of 20,000 sq.ft and 12 acres of land in a small village. Equipped with the following machinery:

- Jersey Knitting machine
- Texture fabric knitting machine
- 2 end fleece knitting machine
- 3 end fleece knitting machine
- Rib knitting
- Interlock knitting machine
- Dyeing and sewing machine for bulk fabrics.
- Sewing – 10 lines in one factory .We can produce 4 to 8 styles at a time in one factory. We can produce 4 to 8 styles in one week.

## Plant B

This is our second factory and is situated south of Tiruppur, which is 4 km away from Centre and very close to Hotel Velan, Tiruppur. This is 24,000 sq.ft and 3 acres of land in a small village consisting of the following machinery and equipment:

1. 10 Sewing lines, each line can produce 5 to 10 styles per week.
2. Fabric and garment washing and tumble plant to control shrinkage and give fastness and stability to the fabric.
3. The knitted fabric is being supplied from plant A to this plant on a regular basis.
